

DIGITAL LEARNING EXPERT

Job2com, a leading digital training firm, collaborates with businesses and training centers to overhaul their training initiatives with a focus on user-friendliness and data centrality. Our team of training consultants, industry specialists, and digital communication experts is committed to ensuring the smooth success of your transformation project :

- Develop your roadmap;
- Design your blended learning or e-learning training journey;
- Establish your training academy;
- Support your trainers and employees in adapting to this new learning model;
- Ensure the success of your digital learning training project and optimize your training budget.

Creativity, skills, and experience are the essential pillars of any successful communication service... and more!

Our goal is to bring added value to your business. To achieve this, we harness all our resources to craft efficient and effective solutions. We take the time to get to know you, thoroughly understanding your challenges, and defining a powerful communication strategy.

We get to know the members of your team, delve into the details of your business, explore the history of your company, your ambitions, your market, and more.

At Job2com, what we value above all is genuine relationships and conviviality. We'll be spending a lot of time together, and it's crucial to work in mutual trust.

OUR METHODOLOGY |

Because your training project is unique, we have internalized all the key skills necessary to provide you with personalized solutions. At different stages of your project, you will engage with our team of consultants, trainers, digital learning designers, motion designers, graphic artists, and serious games.

PROCESS

We draw all our creativity from collaboration. We work through a co-construction process to build a thoughtful, playful, interactive, and, above all, efficient training program.

Collective intelligence is the focal point of our methodology.

Together, we are more effective!

Creative, yes, but pragmatic above all!

We keep our feet on the ground and appreciate well-structured projects.

Our project management processes are clear and precise.

Each project management step is digitized to save time and respond to your needs promptly.

We appreciate well-organized things: rigor fuels our creativity!

TRAINING |

OUR TRAINING SOLUTIONS

Choose new forms of learning that are more varied, modern, playful, and 100% accessible to your collaborators.

Educational Videos

Training or learning modality in short sequences from 30 seconds to 3 minutes, using texts, images, or sound.

Mooc, Spoc, Cooc

The offer in digital learning is evolving rapidly. We tailor the technology to your business environment and the specificities of your learners.

E-Learning Platform

An online training platform capable of supporting the learning experience and multiplying learner engagement.

Serious Games

Serious Games are situational simulations and case studies based on best practices, allowing modeling in an environment.

Training goes beyond the classroom with the My Academy platform.

The digitization of your content through our solution will allow you to save time, better manage your training, achieve better results, and, above all, impact your participants on a large scale.

My Academy is based on:

Valorization

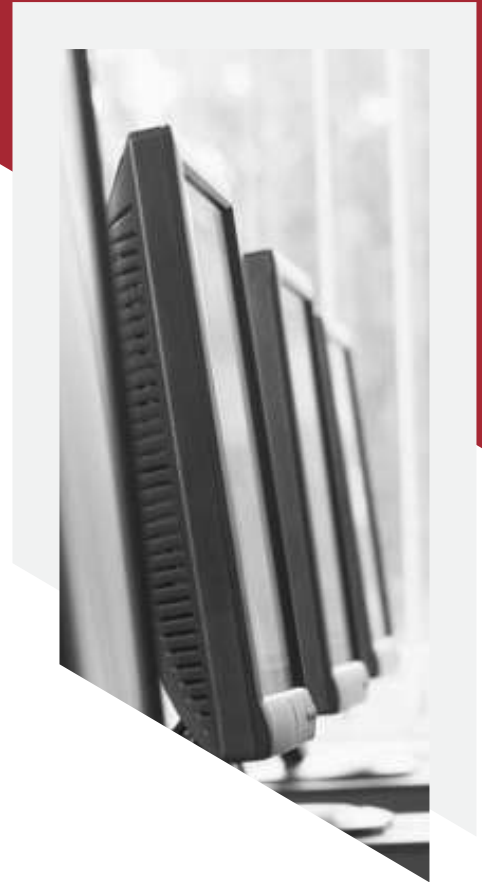

Motivation

Personalization
of training

Pedagogical
quality

CUSTOMIZE YOUR DIGITAL LEARNING JOURNEYS

Our platform enables trainers to design user-friendly, accessible learning journeys that combine text, video, images, and quizzes.

TRAININGS

Create engaging and interactive training sessions that comply with current SCORM standards.

PLANNING

Schedule based on your collaborators constraints.

MANAGEMENT

Track the progress of your collaborators and monitor their skill development.

COMMUNICA- TION

Establish learning channels (chats, forums, etc.) for training.

REPORTING

Generate clear and immediate reports.

STATISTICS

Monitor the performance of educational engineering.

DISCOVER OUR PLATFORM

Ensure the skills development of your employees with our e-learning platform MY ACADEMY.
